

**LEBLON
DELIENNE**
POP SCULPTURE

Elena Salmistraro

"My creations are the result of a combination of art and design. One of my work's priorities is the search for the expressive language of objects, which may fascinate people by evoking emotions."

Leblon Delienne unveils its new collaboration with Milanese artist and designer Elena Salmistraro, a leading figure in the new Italian design.

The encounter of her colorful work with the Pop universe of Leblon Delienne's workshop gives rise to two new creations, placed under the sign of originality and poetry.

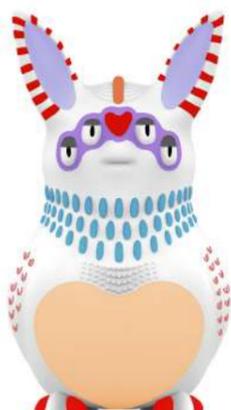

Ennio, a character who came straight out of Elena Salmistraro's imagination, has a subtle colored and textured finish. Measuring 80cm, and limited to 8 copies, Ennio is the perfect illustration of the research of the detail and the harmony of the forms that the artist brings to her creations. Sculpted and manufactured in Leblon Delienne's workshop in Normandy, Ennio came to life thanks to the brand's know-how, recognized by the Label "Entreprise du Patrimoine vivant".

For Leblon Delienne, Elena Salmistraro proposes a second creation: her reinterpretation of Daruma. The play of colors and textures, easily identifiable with the artist's universe, is revealed once again with this collection, making these traditional icons into true collector's items.
