LISTONE GIORDANO  
NATURAL GENIUS COLLECTION: REGOLA BY MATTEO THUN

"Inspired by nature and its beauty"

Which path leads to harmony? Inspiration instead of calculation. REGOLA is formal perfection inspired by abstract art. Transforming a tree into a purely geometric form requires creative imagination. Freed from all superfluous, an elegant rhythm of lines and backgrounds forms a well-balanced grid remains. It recalls the design language of New York in the early 1900s.

"Only if you dare to do something new, to cross borders, you can experience something new"

Italian company Listone Giordano is known for excellent hardwood flooring, driven by a single goal: perfection. An incomparable product, made for those who love quality living and look for excellence.
